

SUMIT KUMAR

Full Stack Developer — MERN Stack

+91 96716 58070 | stva3030@gmail.com | Portfolio | LinkedIn | GitHub

SUMMARY

MERN-stack Full Stack Developer with hands-on experience building production-grade web applications using React, Next.js, Node.js, and Express.js. Skilled in REST API design, JWT authentication, real-time systems (Socket.IO, WebRTC), and SQL/NoSQL database design (MongoDB, MySQL, Supabase). Currently building full-stack features, APIs, and interactive applications at VElloop; independently shipped 3+ live full-stack projects, including a real-time collaboration platform and an AI-powered analytics dashboard.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, React Hook Form

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.IO, WebRTC, MVC Architecture

Database & ORM: MongoDB, MySQL, Supabase, Prisma ORM

Tools & Platforms: Git, GitHub, Postman, Vercel, Linux/Windows

Other: TensorFlow, Keras (ML Basics), LLM API Integration (Gemini)

EXPERIENCE

Full Stack Developer Intern | VElloop

Sep 2026 – Present

- Developing and maintaining REST API endpoints and backend services for production features using Node.js and Express.js
- Building interactive browser-based games and responsive frontend interfaces with React.js, focusing on performance and UX
- Collaborating with cross-functional teams to ship full-stack features from design through deployment

Web Development Intern | Labmentix

Mar 2026 – Jun 2026

- Developed full-stack features for production web applications using Next.js, React, and Node.js, contributing to a codebase serving multiple concurrent users
- Designed and implemented 10+ secure REST API endpoints with JWT-based authentication, session handling, and role-based access control
- Collaborated on database schema design and backend architecture to support scalable, maintainable full-stack features

Web Development Trainee | Internshala Trainings

May 2022 – Jul 2022

- Completed an 8-week Web Development training covering HTML, CSS, Bootstrap, DBMS, PHP, JavaScript, and React; scored 100% in the final assessment as a top performer

PROJECTS

Mentor-Student Real-Time Collaboration Platform

Live Demo

React, Node.js, Socket.IO, WebRTC, Supabase

- Built a low-latency real-time platform with a collaborative code editor, live chat, and WebRTC-based video calling supporting simultaneous multi-user sessions via Socket.IO
- Used Supabase for database management and session persistence, enabling reliable peer-to-peer communication and real-time data sync

AI-Powered Data Analyst Dashboard

Live Demo

Node.js, Express.js, Gemini API, Recharts

- Built a dashboard enabling users to query CSV datasets using natural language, integrating the Gemini API for automatic chart-type selection and AI-generated data insights
- Developed backend data processing pipeline and dynamic chart rendering with Node.js and Recharts

Digital Document Signature Platform

Live Demo

Next.js, Node.js, Express.js, MongoDB, JWT, PDF-lib

- Built a full-stack e-signature application with secure JWT authentication, PDF upload, and text-based digital signature placement
- Implemented PDF generation/download, audit logging, and document management via REST APIs using PDF-lib

EDUCATION

Bachelor of Engineering, Computer Science — Chandigarh University

Aug 2020 – Jun 2024

CERTIFICATIONS

IBM Full Stack Developer (Coursera) • Data Analytics (Google) • Machine Learning (Coursera)
