SUMMARY

MERN-stack full-stack developer with hands-on experience building production-grade web applications using React, Next.js, Node.js, and Express.js. Skilled in REST API design, JWT authentication, real-time systems (Socket.IO, WebRTC), and SQL/NoSQL databases (MongoDB, MySQL, Supabase). Shipped 3 live full-stack projects independently, including a real-time collaboration platform and an AI-powered analytics dashboard- additional projects available in my portfolio.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL

Frontend: React.js, Next.js, HTML5, Tailwind CSS, React Hook Form

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.IO, WebRTC, MVC Architecture

Database & ORM: MongoDB, MySQL, Supabase, Prisma ORM

Tools & Platforms: Git, GitHub, Postman, Vercel, Linux/Windows

Other: TensorFlow, Keras (ML basics), LLM API integration (Gemini)

EXPERIENCE

Web Development Intern | Labmentix

Mar 2026 – Present

- Developed full-stack features for production web applications using Next.js, React, and Node.js, contributing to a codebase serving multiple concurrent users.
- Designed and implemented 10+ secure REST API endpoints with JWT-based authentication, session handling, and role-based access control.
- Collaborated on database schema design and backend architecture to support scalable, maintainable full-stack features.

Web Development Trainee | Internshala Trainings

Completed Jul 2022

- Completed an 8-week online training on Web Development covering HTML, CSS, Bootstrap, DBMS, PHP, JS, React, and a final project.
- Scored 100% marks in the final assessment and was recognized as a top performer in the training.

PROJECTS

Mentor–Student Real-Time Collaboration Platform | [Live Demo](#)

- Built a low-latency real-time platform with a collaborative code editor, live chat, and WebRTC-based video calling, supporting simultaneous multi-user sessions via Socket.IO.
- Used Supabase for database management and session persistence, enabling reliable peer-to-peer communication and real-time data sync.
- Tech: React, Node.js, Socket.IO, WebRTC, Supabase*

AI-Powered Data Analyst Dashboard | [Live Demo](#)

- Built a dashboard enabling users to query CSV datasets using natural language, removing the need for manual formula/query writing.
- Integrated the Gemini API for automatic chart-type selection and AI-generated data insights.
- Developed backend data processing pipeline and dynamic chart rendering with Node.js and Recharts.
- Tech: Node.js, Express.js, Gemini API, Recharts*

Digital Document Signature Platform | [Live Demo](#)

- Built a full-stack e-signature application with secure JWT authentication, PDF upload, and text-based digital signature placement.
- Implemented PDF generation/download, audit logging, and document management via REST APIs using PDF-lib.
- Tech: Next.js, Node.js, Express.js, MongoDB, JWT, PDF-lib*

EDUCATION

Bachelor of Engineering, Computer Science | Chandigarh University

Aug 2020 – Jun 2024

12th (Non-Medical) | Shree Krishna Pranami Public School

Jun 2020

10th (Matriculation) | Shree Krishna Pranami Public School

2017 – 2018

CERTIFICATIONS

IBM Full Stack Developer (Coursera), Data Analytics (Google), Machine Learning (Coursera)

Languages: English, Hindi
